## Grantee Programs

### Owner-Occupied Rehabilitation

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 2,624,000.00	\$ 2,624,000.00	\$ 0.00
B-21-DZ-19-0001	\$ 2,624,000.00	\$ 2,624,000.00	\$ 0.00

#### Narratives:

##### Program Description

Program will seek to assist LMI and UN homeowners in addressing deficiencies incurred as a result of the August 2020 derecho and the need to rehabilitate housing in the MID area to alleviate post-disaster housing need. The storm blew trees into the roofs of people's homes and in some instances blew the roof off the home or caused other damage to the structure, resulting in interior damage to the home. From the surveys conducted, IEDA understands that there is a need for rehabilitation assistance. Because the program will benefit homeowners impacted by the 2020 Midwest Derecho, the property must be the applicant's principal place of residence and the applicant must own the property. Residential properties containing businesses and or any kind of rental unit are not eligible for assistance. The maximum award is \$50,000 per unit. The State will review exceptions for increasing award amounts above the maximum on a case-by-case basis based on the Exception Policy in the program guidelines. Non-substantial rehabilitation will need to comply with the [HUD CPD Green Building Retrofit Checklist](#). The program will be restricted to the HUD most impacted and distressed area (Linn County).

##### Program Tieback to Disaster/Unmet Needs

This program addresses the unmet needs for homeowners located in eligible MID areas impacted by the disaster. Roughly 1,772 units were impacted by the disaster according to data from FEMA on real property damage. With the funding, IEDA expects to serve at least 50 housing

Program Tieback to Disaster/Unmet Needs	units.
How Program will Promote Housing for Vulnerable Populations	<p>The program is intended to help impacted residents, vulnerable populations, and members of underserved communities expedite their recovery by:</p> <ul style="list-style-type: none"> <li>• Performing outreach and engagement to understand the needs of impacted participants.</li> <li>• Creating a personalized recovery plan.</li> <li>• Coordinate with local organizations to ensure that refugee and immigrant populations are aware of the assistance and can access it. <ul style="list-style-type: none"> <li>• Coordinate with local non-profit organizations that provide services to people with disabilities, and historically underserved populations to ensure the promotion of the program and help remove their barriers to access the assistance.</li> <li>• A provision has been put in to review rehabilitation needs for LMI persons in need of assistance beyond the maximum award cap.</li> </ul> </li> </ul>
Program Affordability Period (if applicable)	N/A
Program Definition of Second Home/Eligibility	Per the requirements in the Consolidated Notice, properties that served as second homes at the time of the disaster, or following the disaster, are not eligible for assistance for rehabilitation, reconstruction, new construction, or replacement. A “second home” is defined as a home that is not the primary residence of the owner, a tenant, or any occupant at the time of the disaster or at the time of application for CDBG-DR assistance. The program will not fund second homes.
Program National Objective(s)	Low- to Moderate-Income Housing or Urgent Need. The program may use the Urgent Need national objective to provide assistance to eligible disaster-impacted applicants with incomes greater than 80% of area median income and up to 120 percent of area median income.
Program Eligibility	Rehabilitation, reconstruction, elevation, new construction, public facilities, and infrastructure in support of housing development, acquisition, and clearance; HCDA Section 105(a)1, 2, 4, 5, 8, 11, and 14; applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364).
Program Responsible Entity	City, county, and tribal governments are the eligible applicants and Responsible Entities.
Program Maximum Assistance	The program will set a cap of no more than \$50,000 per unit. Homeowners cannot receive more assistance than meets or exceeds 50% of their home’s pre-disaster market value. The State will review exceptions for increasing award amounts above the maximums on a case-by-case basis based on the Exception Policy in the program guidelines.
Program Estimated Begin and End Dates	The program will launch within 6 months of the grant agreement between HUD and IEDA being signed and conclude within 6 months prior to grant closeout with HUD.
Program Competitive Application Overview (if applicable)	<p>IEDA will publish competitive application rounds for owner-occupied rehabilitation. All applications within a round will be reviewed, scored, ranked, and awarded based on score. A minimum threshold score will be established to ensure that high-quality projects are selected. This program will be limited to the HUD MID county only. The scoring criteria is as follows and each criteria on the application will be graded from 0 to 5 points.</p> <ol style="list-style-type: none"> <li>1. Rank the percentage of requested LMI rehabilitation funding.</li> <li>2. Rank how the project aligns with the applicant’s Community Development and Housing Needs Assessment.</li> <li>3. Rank the community’s proposed steps to Affirmatively Further Fair Housing.</li> <li>4. Rank the level of optional local match.</li> <li>5. Rank the level of community readiness.</li> </ol>
Program Method of Distribution Description/Overview (if applicable)	Funds will be awarded through a competitive process to municipalities, counties, and tribes.
How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)	N/A

How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable) N/A

**Generators for Critical Facilities**

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 1,685,000.00	\$ 1,332,000.00	\$ 353,000.00
B-21-DZ-19-0001	\$ 1,685,000.00	\$ 1,332,000.00	\$ 353,000.00

**Narratives:**

Program Description	<p>Communities were impacted as a result of the 2020 Midwest Derecho and suffered prolonged power outages. Many power lines were downed and, in many cases, power lines damaged homes or fell onto the roadway, blocking traffic or damaging the street. The increasing intensity of storms means that events like the 2020 Midwest Derecho are likely to occur again. Increased investments, whether related to an enhanced energy grid, more renewable options, battery storage, or lower cost energy solutions, will allow the State of Iowa to prepare for the future. As part of the implementation, IEDA will work with subrecipients to ensure that adaptable and reliable technologies are used so that the traditional or solar (or otherwise renewably-powered generators) last for an extended period and can provide value to the community.</p> <p>Lack of access to power can be detrimental for providing critical services such as emergency medical care at hospitals and shelters for displaced residents. The Generators for Critical Facilities Program will allow communities to make more resilient critical buildings that serve a public safety purpose for local communities and reduce any damage and loss of life from future storm and disaster events.</p> <p>The generators will keep critical public facilities open in disasters so they can continue to provide services to the residents throughout the community. The generators will be permanent fixtures integrated into the broader systems to ensure continuity of services. Portable generators will not be eligible.</p>
Program Tieback to Disaster/Unmet Needs	This program addresses the infrastructure-related unmet needs in eligible MID areas impacted by the disaster.
How Program will Advance Long-Term Resilience	The program will increase communities' resilience to future natural disasters by reducing the loss of suffering and hardship and lessening the impact of future natural disasters by providing electricity to a place of shelter or critical service during and after a natural disaster.
How Program will Address Disaster-Related Storm Water Mgmt/Other Systems	The program will improve the resiliency of local power systems by providing electricity to places of shelter or critical services during and after a natural disaster.
Program National Objective(s)	Low- to Moderate-Area Benefit or Urgent Need. The Urgent Need national objective will only be used when an LMI national objective cannot be achieved through the project, but the project has demonstrable recovery or mitigation public infrastructure benefits within the HUD- or grantee- identified MID.
Program Eligibility	HCDA 105(a) 1, 2, and 4 applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364) and other applicable notices or guides.
Program Responsible Entity	City, county, and tribal governments are the eligible applicants and Responsible Entities.
Program Maximum Assistance	The program will set a maximum award of no more than \$100,000 per generator installed.
Program Estimated Begin and End Dates	The program will launch within one month of the grant agreement between HUD and IEDA being signed and conclude within 6 months prior to grant closeout with HUD.
Program Competitive Application Overview (if applicable)	IEDA will publish competitive application rounds for the generators for critical facilities program. All applications within a round will be reviewed, scored, ranked, and awarded based on score. A minimum threshold score will be established to ensure that high-quality projects are selected. This program will be limited to the HUD and State MID areas. The scoring criteria is as follows and each criteria on the application will be graded from 0 to 5 points.

Program Competitive Application Overview (if applicable)

1. Rank the area's LMI percentage.
2. Rank the level of optional local match.
3. Rank the level of public accessibility amid or post disaster.
4. Rank of the level of described community need.
5. Rank the location outside of the 500-year floodplain.
6. Rank the community's proposed steps to Affirmatively Further Fair Housing.
7. Rank the proposed usage of solar or other renewably-powered generators

A program guideline will be developed to further expand on the program description, the relevant application form, and guidelines to assist eligible cities, counties, and tribes with the submission of their requests to the State.

Program Method of Distribution Description/Overview (if applicable)

Funds will be awarded through a competitive process to municipalities, counties, and tribes.

How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)

All mitigation activities funded through the Generators for Critical Facilities program will increase resilience to disasters or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters.

How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable)

The Generators for Critical Facilities program will increase communities' resilience to future natural disasters and reduce the long-term risk of loss of life, injury, damage to and loss of property, and lessen residents' suffering and hardship and impact of future natural disasters.

### New Resilient Affordable Rental Housing

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 21,004,237.00	\$ 17,782,498.00	\$ 3,221,739.00
B-21-DZ-19-0001	\$ 21,004,237.00	\$ 17,782,498.00	\$ 3,221,739.00

#### Narratives:

Program Description

Similar to the New Housing – Owner Occupied Program, the New Housing – Rental Program will offer the construction of single-family (1-4 units) and multifamily (5+ units) structures on vacant lots within existing neighborhoods or the development of new neighborhoods for residential purposes. The State is currently anticipating the creation of approximately 194 new rental housing units over the life of this grant. As stated above, the program guidelines will be fully developed for the New Housing – Rental Program and will include the following:

- Local municipalities (city, county, or tribe) will submit competitive applications to IEDA, which will be scored and ranked.
- \$75,000 incentive award per rental housing unit for any given development project located in eligible areas.
- \$15,000 mitigation incentive per unit for developers to use towards building materials that can better withstand storm events and mitigate against future natural disaster damage.
- Incentive can be drawn down during construction.
- Developer must own the building lots or can demonstrate site control.
- All new units must be constructed outside of the 100- and 500-year regulatory floodplains.
- All units must have access and connection to municipal utilities, including water and sewer, and broadband. No projects dependent on wells and/or septic systems will be eligible
- Additional funds (up to \$70,000) needed to provide the infrastructure for the new housing development also is available as a component of the program.
- All units must be offered to derecho-impacted victims for 4 months before being offered to an eligible member of the public.
- For all rental units, the developer must meet 51% LMI-qualified tenant occupancy for the term of affordability as per the program guidelines.
- All rental units (defined as five or more units) are subject to HUD's 65% HOME rent limits for the LMI tenants for the term of affordability (20 years for new construction of rental housing, refer to II.B.3 of the Federal Register Notice).

Program Tieback to Disaster/Unmet Needs

This program addresses the unmet needs tied to providing new resilient affordable housing to improve the rental housing stock in the disaster-impacted MID areas.

How Program will Promote Housing for Vulnerable Populations

The program is intended to help impacted residents, vulnerable populations, and members of underserved communities expedite their recovery by:

- Performing outreach and engagement to understand the needs of impacted participants.

How Program will Promote Housing for Vulnerable Populations	<ul style="list-style-type: none"> <li>• Creating a personalized recovery plan.</li> <li>• Coordinating with government agencies and developers</li> <li>• Coordinate with local organizations to ensure that refugee and immigrant population are aware of the assistance and can access it</li> <li>• Coordinate with local non-profit organizations that provide services to people experiencing homelessness, people with disabilities, and historically underserved populations to ensure the promotion of the program and help remove their barriers to access the assistance.</li> </ul>
Program Affordability Period (if applicable)	For multifamily projects awarded 5 or more units, the affordability period will be 20 years. For single-family projects awarded 4 or fewer units, the affordability period will be 15 years. At least 51% of units in a project must be rented to persons of LMI income and subject to the 65% HOME rent limits for the affordability period.
Program Definition of Second Home/Eligibility	Per the requirements in the Consolidated Notice, properties that served as second homes at the time of the disaster, or following the disaster, are not eligible for assistance for rehabilitation, reconstruction, new construction, or replacement. A "second home" is defined as a home that is not the primary residence of the owner, a tenant, or any occupant at the time of the disaster or at the time of application for CDBG-DR assistance. The program will not fund second homes.
Program National Objective(s)	Low- to Moderate-Income Housing
Program Eligibility	New construction, acquisition, clearance; HCDA Section 105(a)1, 4, 5, 8, 11, 14, 15, and 24; applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364).
Program Responsible Entity	City, county, and tribal governments are the eligible applicants and Responsible Entities.
Program Maximum Assistance	The program will provide standard awards of a maximum of \$75,000 per unit.
Program Estimated Begin and End Dates	The program will launch within one month of the grant agreement between HUD and IEDA being signed and conclude within 6 months prior to grant closeout with HUD.
Program Competitive Application Overview (if applicable)	<p>IEDA will publish competitive application rounds for the new production of housing. All applications within a round will be reviewed, scored, ranked, and awarded based on score. A minimum threshold score will be established to ensure that high-quality projects are selected. This program will be limited to the MID counties only. The scoring criteria is as follows and each criteria on the application will be graded from 0 to 5 points.</p> <ol style="list-style-type: none"> <li>1. Rank the level of development of the provided plans, renderings, and specifications.</li> <li>2. Rank the wind resiliency features.</li> <li>3. Rank the Green Score: The degree to which the proposed project is consistent with sustainability and smart growth principles and the degree to which the project exceeds the ICC 700 or Iowa Green Communities criteria (higher points for requesting and integrating additional green and resiliency incentives).</li> <li>4. Rank how the project included recommendations provided in the IEDA design consultation.</li> <li>5. Rank whether the project intends to comply with the U.S. Department of Energy Zero Energy Ready Homes program requirements and obtain certification.</li> <li>6. Rank the project's alignment with the applicant's Community Development and Housing Needs Assessment.</li> <li>7. Rank the community's proposed steps to Affirmatively Further Fair Housing.</li> <li>8. Rank how well the project furthers infill and/or orderly development.</li> <li>9. Rank the project's shovel readiness.</li> <li>10. Rank how well documented the other funding sources are.</li> <li>11. Rank the level of optional local match.</li> <li>12. Rank how detailed the development team is. Does it include email and phone number contact information for all development team members?</li> <li>13. Rank how experienced the development team is with regard to green and resilient building standards</li> <li>14. Rank how experienced the development team is with regard to HUD or other federally funded projects.</li> <li>15. Rental only: Rank how detailed the pro forma and rent calculation worksheet is.</li> </ol>
Program Method of Distribution Description/Overview (if applicable)	The program will award funding to the eligible applicants; cities, counties, and tribes.
How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)	All mitigation activities funded through the Mitigation Incentive will increase resilience to disasters or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters. Eligible Mitigation Incentive

How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable) activities will be derived from the Iowa Green Streets Criteria and described in the program guidelines.

How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable) The Mitigation Incentive will increase homes' resilience to future natural disasters and reduce the long-term risk of loss of life, injury, damage to and loss of property, and lessen homeowners' suffering and hardship and impact of future natural disasters.

**Infrastructure in Support of Housing**

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 3,965,019.00	\$ 3,965,019.00	\$ 0.00
B-21-DZ-19-0001	\$ 3,965,019.00	\$ 3,965,019.00	\$ 0.00

**Narratives:**

Program Description The program will provide funding for infrastructure improvements required for housing units, such as road and roadway improvements, access to utilities, trees, and so forth that are eligible for an additional funding request. Associated infrastructure requests will be submitted based on actual cost/need and reviewed by IEDA prior to award. The developer can request up to 35% of the cost of housing construction to install the infrastructure needed to support housing development.

Program Tieback to Disaster/Unmet Needs This program addresses the unmet needs tied to providing new resilient affordable housing to improve the housing stock in the disaster-impacted MID areas. To further incentivize the development of resilient affordable housing, the developer can request up to \$70,000 per unit for infrastructure needs.

How Program will Promote Housing for Vulnerable Populations The State will prioritize projects that provide the essential public infrastructure necessary for housing and/or will protect life and property, including for members of protected classes, HUD-identified vulnerable populations, and historically underserved communities. Infrastructure in support of housing are for projects selected through IEDA's competitive new housing programs' process. IEDA has included ranking an applicant's steps to affirmatively further housing in their projects.

Program Affordability Period (if applicable) N/A

Program Definition of Second Home/Eligibility Per the requirements in the Consolidated Notice, properties that served as second homes at the time of the disaster, or following the disaster, are not eligible for assistance for rehabilitation, reconstruction, new construction, or replacement. A "second home" is defined as a home that is not the primary residence of the owner, a tenant, or any occupant at the time of the disaster or at the time of application for CDBG-DR assistance. The program will not fund second homes.

Program National Objective(s) Low- to Moderate-Area Benefit

Program Eligibility Public facilities and improvements; HCDA 105(a) 1 and 2; applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364) and other applicable notices or guides.

Program Responsible Entity City, county, and tribal governments are the eligible applicants and Responsible Entities.

Program Maximum Assistance Up to \$70,000 per unit (or 35% of housing construction costs whichever is lower)

Program Estimated Begin and End Dates The program will launch within one month of the grant agreement

Program Estimated Begin and End Dates	between HUD and IEDA being signed and conclude within 6 months prior to grant closeout with HUD.
Program Competitive Application Overview (if applicable)	As part of the application for new resilient, affordable housing, refer to the Program Competitive Application Overview in Section 4.9.1.1, New Housing – Owner Occupied and New Housing-Rental.
Program Method of Distribution Description/Overview (if applicable)	The program will award funding to the eligible applicants; cities, counties, and tribes.
How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)	N/A
How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable)	N/A

**New Resilient Affordable Single-Family Housing**

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 19,881,219.00	\$ 16,832,288.00	\$ 3,048,931.00
B-21-DZ-19-0001	\$ 19,881,219.00	\$ 16,832,288.00	\$ 3,048,931.00

**Narratives:**

Program Description	<p>Communities still face significant needs for restoring and improving the resilience of the housing stock in the disaster-impacted MID areas. The new resilient, affordable housing will be owner occupied and coordinated with a homebuyer assistance program. This program targets new homeowners who want to transition from renting to home ownership but will be available to previous or current homeowners. The program will offer the construction of single-family houses (1-4 units) on vacant lots within existing neighborhoods or the development of new neighborhoods for residential purposes. Based on industry standards, the average infrastructure cost associated with building new units averages about 35%, which equates to \$70,000 per housing unit to provide needed infrastructure to support housing development.</p> <p>As per Federal Register Notice 83 FR 6364 (refer to II.B.1), CDBG-DR funds are eligible to assist new construction activities. When a CDBG-DR grantee carries out a new housing construction activity, <a href="#">24 CFR 570.202</a> shall apply and shall be read to extend to new construction in addition to rehabilitation assistance. Private individuals and entities must remain compliant with federal accessibility requirements, as well as with the applicable site selection requirements of 24 CFR 1.4(b)(3) and 8.4(b)(5).</p> <p>Based on the disaster impact and post-disaster unmet needs assessment included in this document, the State understands that a variety of housing sizes and types are needed to respond to the needs of all residents. IEDA will make awards to projects that offer a variety of housing sizes in order to best serve families with children, disabled persons, and seniors. The State understands the value of increasing single family homeownership opportunities as a tool to build wealth and reduce poverty, particularly for LMI households.</p> <p>Program guidelines will be fully developed for the new resilient, affordable housing for home ownership program, and will include the following:</p> <ul style="list-style-type: none"> <li>• Instructions for local municipalities (city, county, or tribe) to submit competitive applications to IEDA, which will be scored and ranked.</li> <li>• Incentives can be drawn down during construction.</li> <li>• \$100,000 incentive award per owner-occupied housing unit for construction reimbursement with CDBG-DR funds.</li> <li>• Up to \$25,000 mitigation incentive per unit for developers to use towards building materials that can better withstand storm events and mitigate against future natural disaster damage.</li> <li>• All sold units can utilize CDBG-DR assistance for down-payment and closing costs as a benefit to the buyer, providing up to 100% of the minimum required down-payment and recorded with a 5-year receding lien.</li> <li>• The developer must own the property of the building site or can demonstrate site control.</li> <li>• New resilient, affordable housing will be awarded as a grant, with 10% retainage held until an LMI-qualified buyer occupies the home.</li> <li>• For each sale, the applicant must be an LMI-qualified buyer.</li> <li>• All new units must be constructed outside of the 100- and 500-year regulatory floodplains.</li> <li>• All units must have access and connection to municipal utilities, including water, sewer, and</li> </ul>
---------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Program Description	<p>broadband. No projects dependent on wells and/or septic systems will be eligible.</p> <ul style="list-style-type: none"> <li>• Additional funds (up to \$70,000) needed to provide the infrastructure for the new housing development also is available as a component of the program.</li> <li>• All units must be marketed to August 2020 derecho-impacted victims for 4 months before being offered to an eligible member of the public.</li> <li>• The sale of housing units must be capped at no more than \$175,000 per housing unit.</li> <li>• Developers who sell the housing unit will adhere to applicable affordability periods stated in IEDA's program guidelines.</li> </ul> <p>Public Services: Iowa's CDBG-DR housing programs strive to provide housing that is permanent, affordable, and good quality. To ensure that homeowners and renters can afford their mortgage or lease, IEDA will coordinate with and encourage its subrecipients to make use of existing services or develop services that will provide applicants with housing counseling, financial, legal, and health support. For example, IEDA in its partnerships with Linn County, ECICOG and the City of Cedar Rapids will leverage the services offered through its <b>PATCH</b> program. The program will identify needs, identify contractors, and provide financial assistance to low-to-moderate income Linn County homeowners impacted by the storm. These services will help reduce the barrier to entry for homeowners and renters and provide stability for families to remain in their homes longer.</p> <p>Homebuyer Assistance: Federal Register Notice 87 FR 6364 (refer to II.B.5.D) states that grantees, upon completing construction of the housing units, can provide down payment assistance. The maximum allowed is 100% of the required down payment, based on lender requirements and credit assessment of the buyer, plus closing costs. Qualified LMI households, under 80% of the AMI, are eligible to participate and must be able to secure a mortgage. Each potential buyer should be advised on the credit requirements needed to buy a home. This assistance will be documented in the form of a receding forgivable loan and is subject to recapture in accordance with the receding percentages documented in the filed loan.</p>
Program Tieback to Disaster/Unmet Needs	<p>This program addresses the unmet needs tied to providing new resilient, affordable housing to improve the housing stock in the disaster-impacted MID areas. The State intends to market to first-time homebuyers to assist impacts on the rental community but will not restrict the program to first-time homebuyers. The State is currently anticipating the creation of 137 new single-family housing units over the life of this grant.</p>
How Program will Promote Housing for Vulnerable Populations	<p>The disaster impacted the housing conditions of many residents in the community. Due to the lack of affordable housing in the market, many households were forced to make quick decisions. Many people, including vulnerable refugee and immigrant populations, were forced into unsuitable living conditions and homelessness. Years later, many of these impacted populations are still unable to find suitable and affordable housing. The CDBG-DR funds will be used to reduce the barriers (limited housing finances, available housing stock) that individuals still face accessing the housing market. The program is intended to help impacted residents, vulnerable populations, and members of underserved communities expedite their recovery by:</p> <ul style="list-style-type: none"> <li>• Performing outreach and engagement to understand the needs of impacted participants.</li> <li>• Creating a personalized recovery plan.</li> <li>• Coordinating with government agencies and developers.</li> <li>• Coordinate with local organizations to ensure that refugee and immigrant populations are aware of the assistance and can access it.</li> <li>• Coordinate with local non-profit organizations that provide services to people experiencing homelessness, people with disabilities, and historically underserved populations to ensure the promotion of the program and help remove their barriers to access the assistance.</li> </ul>
Program Affordability Period (if applicable)	<p>For single-family projects (1-4 completed units on a parcel), the affordability period will be 15 years.</p>
Program Definition of Second Home/Eligibility	<p>Per the requirements in the Consolidated Notice, properties that served as second homes at the time of the disaster, or following the disaster, are not eligible for assistance for rehabilitation, reconstruction, new construction, or replacement. A "second home" is defined as a home that is not the primary residence of the owner, a tenant, or any occupant at the time of the disaster or at the time of application for CDBG-DR assistance. The program will not fund second homes.</p>
Program National Objective(s)	<p>Low- to Moderate-Income Housing</p>
Program Eligibility	<p>New construction, acquisition, clearance, and homeownership assistance; HCDA Section 105(a)1, 4, 5, 8, 11, 14, 15, and 24; applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364).</p>
Program Responsible Entity	<p>City, county, and tribal governments are the eligible applicants.</p>
Program Maximum Assistance	<p>The program will provide standard awards of \$100,000 per housing unit, a mitigation incentive per unit, and up to 100% of down payment assistance and closing costs for qualified homebuyers.</p>
Program Estimated Begin and End Dates	<p>The program will launch within one month of the grant agreement between HUD and IEDA being signed and conclude within 6 months prior</p>

Program Estimated Begin and End Dates

to grant closeout with HUD.

Program Competitive Application Overview (if applicable)

IEDA will publish competitive application rounds for the new production of resilient affordable housing. All applications within a round will be reviewed, scored, ranked, and awarded based on a score. A minimum threshold score will be established to ensure that high-quality projects are selected. This program will be limited to MID counties only. Scoring priorities will include, but are not limited to, the following:

- Readiness to Proceed – How quickly a project can move from award to construction. This includes site control, established financing, and project plans and specifications.
- Resilient features for wind resistance.
- Green Streets Score – Projects that select optional Iowa Green Streets components (above the minimum) will score higher and be more competitive. This includes selecting Green Streets Plus designs, offering ADA-accessible units beyond minimum requirements, integrated stormwater management, and so forth.
- Financial Stability and Proven Record of Development Team – Demonstrating experience.
- Proximity to the disaster-impacted area.
- Furthering orderly/planned development.

The scoring criteria are as follows and each criteria on the application will be graded from 0 to 5 points.

1. Rank the level of development of the plans, renderings, and specifications provided.
2. Rank the wind resiliency features.
3. Rank the need for infrastructure support for the newly constructed housing unit.
4. Rank the Green Score: The degree to which the proposed project is consistent with sustainability and smart growth principles and the degree to which the project exceeds the ICC 700 or Iowa Green Communities Criteria (higher points for requesting and integrating additional green and resiliency incentives).
5. Rank how the project included the recommendations provided in the IEDA design consultation.
6. Rank whether the project intends to comply with the U.S. Department of Energy Zero Energy Ready Homes program requirements and obtain certification.
7. Rank the project's alignment with the applicant's Community Development and Housing Needs Assessment.
8. Rank the community's proposed steps to Affirmatively Further Fair Housing
9. Rank how well the project furthers infill and/or orderly development.
10. Rank the project's shovel readiness.
11. Rank how well documented the other funding sources are.
12. Rank the level of optional local match.
13. Rank how detailed the development team is. Does it include email and phone number contact information for all development team members?
14. Rank how experienced the development team is with green and resilient building standards
15. Rank how experienced the development team is with HUD or other federally funded projects.

Program Method of Distribution Description/Overview (if applicable)

The program will award funding to the eligible city, county, or tribal applicants located in the HUD and State MID areas.

How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)

All mitigation activities funded through the Mitigation Incentive will increase resilience to disasters or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters. Eligible Mitigation Incentive activities will be derived from the Iowa Green Streets Criteria and described in the program guidelines.

How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable)

The Mitigation Incentive will increase homes' resilience to future natural disasters and reduce the long-term risk of loss of life, injury, damage to and loss of property, and lessen homeowners' suffering and hardship and impact of future natural disasters.

**Tree Canopy and Tree Replanting**

Grant	Proposed Budget	Proposed MID Threshold Budget	Proposed MID Threshold Budget
B-21-DZ-19-0001	\$ 5,824,237.00	\$ 4,827,365.00	\$ 996,872.00
B-21-DZ-19-0001	\$ 5,824,237.00	\$ 4,827,365.00	\$ 996,872.00

**Narratives:**

Program Description	<p>As a result of the 2020 Midwest Derecho, the <a href="#">Iowa Department of Natural Resources</a> reported that the State lost nearly 4.5 million trees damaged or destroyed by the storm in cities and 2.7 million trees in rural areas. The result was an estimated \$20 million in annual benefits lost from its urban tree canopy that was damaged. Of the total in cities, the report also found that Linn County lost a majority of the trees in the State.</p> <p>Communities and nonprofits working with them have begun to replenish the trees that have been lost, relying mainly on volunteer efforts backed by State initiatives. Various initiatives of the tree planting include providing trees to households that otherwise might not have access to a new tree, supporting species dependent on the natural environment, and restoring the natural habitat.</p> <p>IEDA is proposing to use CDBG-DR assistance to fund the removal of stumps and support the replanting activities occurring within the MID counties. Trees will be removed and/or trees native to Iowa replanted only on public property or the public right-of-way. For anything on private land, IEDA expects local entities to support homeowner needs with their own funding. In addition, the allocation for this activity will be treated as mitigation that will aim to protect and conserve the natural areas, improve on energy resiliency by providing shade from daylighting, and mitigate future storm flooding by capturing and storing stormwater runoff for reuse or irrigation.</p> <p>To maximize the benefits to the communities, IEDA will leverage other funding sources to the extent possible.</p>
Program Tieback to Disaster/Unmet Needs	This program addresses the infrastructure-related unmet needs in eligible MID areas impacted by the disaster.
How Program will Advance Long-Term Resilience	The program will increase communities' resilience to future natural disasters by reducing the loss of suffering and hardship and lessening the impact of future natural disasters by rebuilding the tree canopy, which will help to reduce stormwater runoff and reduce the urban heat island effect that contributes to elevated temperatures, severe weather, and climate change.
How Program will Address Disaster-Related Storm Water Mgmt/Other Systems	The program will improve the resiliency of communities by capturing more storm water on-site during disaster-related events, which will reduce the volume and speed of storm water that contributes to disaster damages in a storm event.
Program National Objective(s)	Low- to Moderate-Area Benefit or Urgent Need. The Urgent Need national objective will only be used when an LMI national objective cannot be achieved through the project, but the project has demonstrable recovery or mitigation public infrastructure benefits within the HUD- or grantee- identified MID.
Program Eligibility	Interim assistance, public facilities, code enforcement, HCDA 105(a) 2, 3, and 4, applicable waivers identified in the Allocation Announcement Notice and Consolidated Notice (87 FR 6364) and other applicable notices or guides.
Program Responsible Entity	City, county, and tribal governments are the eligible applicants and Responsible Entities.
Program Maximum Assistance	\$1,000 per tree planted or removed. IEDA may increase the per tree amount if subrecipients can demonstrate that \$1,000 is insufficient for planting trees and providing care.
Program Estimated Begin and End Dates	The program will launch within 6 months of the grant agreement between HUD and IEDA being signed and conclude within 6 months prior to grant closeout with HUD.
Program Competitive Application Overview (if applicable)	<p>IEDA will publish competitive application rounds for the tree canopy and tree replanting program. All applications within a round will be reviewed, scored, ranked, and awarded based on score. A minimum threshold score will be established to ensure that high-quality projects are selected. This program will be limited to the HUD and State MID areas. The scoring criteria is as follows and each criteria on the application will be graded from 0 to 5 points.</p> <ol style="list-style-type: none"> <li>1. Rank the percentage of activities in LMI areas</li> <li>2. Rank the level of optional local match.</li> <li>3. Rank the community's Tree Replanting Needs Assessment.</li> <li>4. Rank the level of detail for proposed program activities.</li> <li>5. Rank the level of project readiness.</li> </ol> <p>6. Rank the community's proposed steps to Affirmatively Further Fair Housing.</p> <p>A program guideline will be developed to further expand on the program description,</p>

Program Competitive Application Overview (if applicable)	the relevant application form, and guidelines to assist eligible cities and counties with the submission of their requests to the State.
Program Method of Distribution Description/Overview (if applicable)	<b>Funds will be awarded through a competitive process to municipalities, counties, and tribes.</b>
How Mitigation Set-Aside Activities will Meet Definition of Mitigation? (If Applicable)	All mitigation activities funded through the program will increase resilience to disasters or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters.
How Mitigation Set-Aside Activities will Address Current & Future Risks? (If Applicable)	The program will increase communities' resilience to future natural disasters and reduce the long-term risk of loss of life, injury, damage to and loss of property, and lessen residents' suffering and hardship and impact of future natural disasters.

**Activity Description:**

Home Energy Rating System (HERS) Rater services for Disaster Recovery Housing projects. To comply with the federal funding requirements that all disaster recovery housing projects be built to a green building standard, all Iowa disaster recovery housing projects must meet the design and construction requirements of the Iowa Green Streets Criteria. The Iowa Green Streets Criteria is an overlay of the national Green Communities Criteria developed by Enterprise. To verify that housing projects have met the energy performance requirements of the Iowa Green Streets Criteria, the HERS rater works with project designers to design high-performance homes and then completes verification monitoring and testing during various stages of home construction, resulting in the issuance of a HERS certificate and HERS Index for the home.

## Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
Marshalltown	Local Government	\$ 0.00

### Location Description:

Marshalltown, Marshall County, 50158

### Activity Description:

New Construction of 6 LMI Single-Family Townhomes For-Sale in Marshalltown.

Amend #1: Increased budget by \$22,000 due to cost overruns for project delivery. 3/26/2024

Cancelled Contract: The 20-DRH-021 (Fourth Avenue) and 20-DRH-023 (South St) Townhome projects were both cancelled by the developer. The developer submitted an email to Region 6 and IEDA asking to terminate the projects. At that IEDA asked Region 6 to work with the City of Marshalltown to terminate the contract within 30 days. Marshalltown and the Region 6 had the documents completed but the developer delayed signing the termination agreement. A voucher revision was made to apply the project delivery costs to our existing State Admin activity, and then the 510 New Single Family Housing activity was cancelled in DRGR for this project. 6/24/2025 HC  
De-obligated \$1,002,000.

Cedar Rapids	Local Government	\$ 2,057,938.95

**Location Description:**

Cedar Rapids, Linn County, 52401

**Activity Description:**

This activity funds rehabilitation and reconstruction of owner-occupied residential structures for low- to moderate-income (LMI) households in Cedar Rapids. The program provides eligible homeowners with assistance to repair, rehabilitate, or reconstruct disaster-impacted homes to address unmet housing needs and improve long-term safety and resiliency.

The activity will complete 40 LMI owner-occupied housing rehabilitation or reconstruction units.

**Location Description:**

**Activity Description:**

This activity provides rehabilitation assistance to 10 owner-occupied residential units whose homeowners exceed LMI limits but have documented Urgent Need (UN) for derecho-related repairs. Assistance addresses unmet disaster-related housing needs and supports safe, sanitary, and resilient reconstruction consistent with program guidelines.

The activity will complete 10 UN owner-occupied housing rehabilitation or reconstruction units.

Linn County

**Activity Description:**

This activity funds stump removal and the replanting of native trees in areas impacted by the August 2020 derecho. The work will restore lost tree canopy, support long-term recovery in low- and moderate-income neighborhoods, and improve resilience against future natural disasters.

**Proposed budgets for organizations carrying out Activity:**

Responsible Organization	Organization Type	Proposed Budget
Marshalltown	Local Government	\$ 200,000.00

**Location Description:**

Marshalltown, Iowa  
Marshall County

**Activity Description:**

This activity funds stump removal and the replanting of native trees in areas impacted by the August 2020 derecho. The work will restore lost tree canopy, support long-term recovery in low- and moderate-income neighborhoods, and improve resilience against future natural disasters.
