The screen will update accordingly. "Entity Information" now has a subset of menu bubbles. Also, under your search it says "Entity" rather than "Federal Organizations."

Please try another search or go back to previous results.

[Go Back](#)

If the entity is not debarred, your results will say "No matches found." You'll know you did it correctly if the menus below your search bar on the left include options such as "Excluded Individual" and "Excluded Entity." Take a print screen of this entire page, ensuring you have the date/time of the search included.

Repeat the process for the owner of the business. Note that you must start over and do a separate search. Here you see there are three exclusions; you would need to confirm that none of these are the business owner in question. Take another print screen, include an explanation that these persons are not part of your project and merge the two files into one PDF to upload to IowaGrants.

Also note: you cannot do a search for the business, find no exclusions, then simply type in the owner's name on the left and hit "Enter" again. Although it looks like there are no exclusions for anyone named "John Smith," per our previous search of that name individually, we know that isn't true. You must do the searches independently and take two print screens.
