CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The 2025 program year was the first year of Iowa's 2025-2029 Consolidated Plan. The accomplishments outlined below are all from projects funded and awarded during the previous Consolidated Plan, however they still are outcomes reported in CR-05 table. During the 2025 program year, 15 HOME Awards were made totaling nearly \$5 Million, 40 CDBG awards totaling over \$20Million, and three HTF awards totaling over \$3 million. During this first year of the new consolidated plan, the state has made progress towards carrying out the plan and the associated strategic goals by establishing new programs and setting the foundation to be successful in the years to come.

The numbers below represent a combination of HOME, HTF, HOPWA, ESG, and CDBG outcomes.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Enhance Economic Development Opportunities	Non-Housing Community Development	CDBG: \$	Facade treatment/business building rehabilitation	Business	200	43	21.50%	40	43	107.50%

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The majority of the state's CDBG funds go towards assisting cities and counties with improving and maintaining water, sewer, and stormwater systems and management.

In 2025, these projects expended over \$12M in funds across all projects that were active. Water, sewer, and stormwater project that closed during the 2025 program year, assisted over 34,000 households. These types of projects will continue to be a priority in the future.

One of the biggest gaps in the institutional delivery system is the large territory that must be covered by a limited number of staff members. A vital component of the institutional structure that supports affordable housing and community and economic development is the excellent working relationship and coordination of activities between the IEDA and the IFA. That relationship, combined with the Iowa Councils of Government (ICOG), creates a state-wide collaborative effort to design and implement affordable housing and community and economic development programs. The ICOG is the trade association for the 17 Councils of Governments in Iowa. Since 1988, ICOG has brought leaders and communities together to promote economic growth, improve public sector services, and solve regional issues for the future of Iowa. Iowa

Councils of Government are able to help promote programs and administer projects at the local level. CDBG program staff provide regular training to project administrators via the Third Thursday program which informs and trains staff on the various program related topics including procurement, subrecipient monitoring, program requirements, and more.

The annual action plan was amended to the Neighborhood Revitalization program, which utilized funding from prior program years to provide assistance for neighborhood planning. That program commenced in 2023, and the projects awarded during the 2025 program year will be the last three awards as they complete the states goals that outlined in the prior consolidated plan cycle.

Affordable housing continues to be the primary need in the state as identified by stakeholders and in the surveys conducted for the Consolidated Plan. As such, tremendous resources go toward the development of affordable housing, including both federal and state funds. The state of Iowa will continue to focus its HUD CPD funds to support activities across the housing needs spectrum, seeking to increase and improve affordable housing stock, preserve existing affordable rental housing, rehabilitate existing single-family and multi-family housing, and fair housing.

The one-year goals vary by program and the population to be served. Some of the data in the following tables may overlap due to some programs that assist households in addition to individuals. Those served by the TBRA program, for instance, may be homeless receiving rental assistance, in addition to those receiving TBRA who are not homeless but have special needs.

As more and more people are choosing to rent, IFA continues to focus the HOME dollars on TBRA and the creation/rehabilitation of rental units. The new, more stringent homebuyer underwriting requirements are making it more difficult for IFA's subrecipients to find homebuyers who qualify for the assistance. This will continue to be a problem unless the cost of housing increases dramatically or the subrecipients concentrate their efforts on lower-income households.

The State is on track to meet its Homeless objectives. Any gaps in ESG assistance are typically fulfilled state funds from the State's Shelter Assistance Fund and/or Rapid Rehousing Pilot Program. IFA has included Supportive Services dollars as part of its approved HOME-ARP plan which may assist in filling future funding gaps and may account for some of the shortfall in reaching estimated numbers.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

DRAFT

91.520(a)

	CDBG	HOME	HOPWA	HTF
White	31612	497	115	30

Data not collected	70
Total	

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

For ESG, the categories "Client doesn't know" and "Client prefers not to answer" are combined in HMIS. These totals are combined under "Client doesn't know" on the report.

The categories listed above are not all inclusive of what IEDA collects for CDBG. In those cases, IEDA added the numbers to the category that was most similar. CDBG numbers include the demographic breakdown of all projects completed during program year 2025 including the demographics of persons served in communities that completed water/sewer and stormwater project.

The race categories listed above are also not inclusive of what IFA and IDIS collect for race beneficiaries on the HOME completion screens. IFA added the numbers to the category that was most similar.

DRAFT

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	24,208,645	21,111,346
HOME	public - federal	7,943,775	10,134,121
HOPWA	public - federal	1,030,354	910,898
ESG	public - federal	3,021,681	2,982,502
HTF	public - federal	3,134,373	6,753,871

Table 3 - Resources Made Available

Narrative

The amounts included for the expended during program year are based on the PR07 drawn down IDIS report, rounded to the nearest dollar. Note that these dollars expended are for projects awarded during the previous consolidated plan. The projects expending dollar for each program were either active or closed during the 2025 program year.

The State received a total of \$31,367,906 in CDBG-CV funding. Based on the PR-26 and PR02 reports, as shown on February 25th, 2026, a total of \$28,523,500 of the CDBG-CV funding has been expended Specific breakdown includes:

- Planning/Management/General Administration: \$1,743,200
- Public Service: \$6,905,680
- Technical Assistance: \$914,871.21
- LMI: \$13,561,811

Per Federal Register Docket No. FR-6218-N-01 III.B.6.(b)(vi) Iowa is under the established 20% planning, management, and administrative cap including the limits of up to 5% for general administration and up to 2% for technical assistance.

CDBG-DR funds are not included in the CAPER. Those funds are reported separately in Quarterly Performance Reports (QPRs) and in DRGR. The State of Iowa’s CDBG-DR QPRs can be found on IEDA's website: <https://opportunityiowa.gov/community/disaster-recovery>. The state of Iowa has three active CDBG-DR awards which help create and preserve housing, infrastructure, and community facilities in Iowa counties struck with a disaster.

During the 2025 program year, IFA continued to spend down its February 2023 HOME-ARP allocation of \$29,224,929.00. To date three funding rounds have been offered with approximately \$18.2 million HOME-ARP funds awarded to thirty-five agencies across the state. IFA anticipates additional application round in 2026 to utilize remaining and available HOME-ARP funds to serve qualifying population needs.

HOME:

HP received during Program Year 2025: \$61,927

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 4 – Identify the geographic distribution and location of investments

Narrative

The State does not distribute funds geographically; however, it does make applications open to all geographic areas via a competitive award process to ensure HUD funds are distributed evenly across the state. The State makes investments in a number of metropolitan and non-metropolitan counties. While several major urban areas appear to have a concentration of projects, many rural areas also received awards. These areas often are smaller communities experiencing economic growth, with a shortage of affordable housing for low-income residents.

For the CDBG program, Iowa encourages jurisdictions to target non-housing community development funds in areas where at least 51% of the residents have incomes at or below 80% of the Area Median Income.

For HOME Investment Partnerships Program (HOME), Iowa does not set specific geographic target areas. These investments leverage other federal, state, and local investments to encourage holistic planning and community development. Points are also awarded to projects located in "high opportunity areas" and "very high opportunity areas" to ensure that low-income individuals are afforded the opportunity to live in areas where higher-wage jobs are present.

For Emergency Solutions Grants (ESG), Iowa does not set specific geographic target areas for ESG activities, but it does incentivize regional collaboration through the development of Coordinated Services Regions for homelessness assistance.

HOPWA works with project sponsors that serve all Iowans across the state.

Local interest and initiative in developing and carrying out programs and projects control the geographic distribution of the State's investments in affordable housing and non-housing community development. In an effort to distribute awards statewide, the State conducts outreach activities, including ongoing contacts and meetings with regional groups. These groups include Councils of Governments, Local

Office. s, and Community Action Agencies. The method of distribution process helps to select projects and proposals targeted toward meeting priority local needs.

DRAFT

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The State of Iowa makes every effort to leverage CDBG, HOME, HTF, ESG and HOPWA funds with non-federal funding resources, including many of the programs identified below. HOME funds have leveraged various amounts and varying types of private and non-federal public funds. Rental projects typically tend to be better leveraged than owner-occupied rehabilitation or homeownership assistance projects. ESG also requires a one-to-one match. IFA passes on this requirement to the subgrantees.

The ESG program is matched through a contribution of state Shelter Assistance Fund dollars to meet 35% of the required one-to-one match, with the remaining 65% from matching contributions from subgrantee agencies. The Shelter Assistant Fund supports the operations of homeless and domestic violence shelters. More than \$1.8 million was awarded for the program in calendar year 2025.

The State Housing Trust Fund had a significant reach in 2025 with \$12.6 million in grants to support affordable housing assisting over 2,600 households.

Federal Mortgage Revenue Bond and Tax-Exempt Multi-Family Bond Programs: The Iowa Finance Authority (IFA) issued bonds totaling \$427.7 million in calendar year 2025, of which \$283 million were tax-exempt. Proceeds from the bonds were used to fund new single-family production and an entry cost assistance program.

Clean Water State Revolving Fund: Clean Water State Revolving Fund: The U.S. Environmental Protection Agency annually provides capitalization grants for the Clean Water State Revolving Fund (CWSRF), a revolving fund for sewage treatment system improvements, as part of the Clean Water Act. Those grants are combined with a state match and interest and principal paid on existing loans to create a revolving loan pool. The Iowa CWSRF is jointly administered by IFA and the Iowa DNR. In state fiscal year 2025, the state executed assistance agreements totaling \$364.0 million to support infrastructure projects in Iowa communities. In FY2025 The Iowa Drinking Water SRF (DWSRF), another jointly administered program, the state executed loan commitments totaling \$173.8 million for municipal drinking water projects.

The Water Quality Financing Program (WQFP), IFA in cooperation with the DNR and the Iowa Department of Agriculture and Land Stewardship (IDALS), provides financial assistance to point

and nonpoint projects that enhance the quality of surface water and groundwater, with higher prioritization given to collaborative efforts. In 2025, over \$8 million in grants were awarded to 18 Iowa communities. 61% percent of grants were awarded to disadvantaged communities.

IFA administers the LIHTC program in Iowa. LIHTC is available to investors for affordable rental projects. In 2025, \$9.6 million in 9% tax credits were awarded by IFA, creating, or preserving more than three hundred units for low-income households. IFA awarded over \$11 million in 4% tax credits creating or preserving 879 units for low-income households.

In FY 25, IFA launched the state’s inaugural Iowa Supportive Housing Institute in partnership with the Corporation for Supportive Housing (CSH), a six-month training series guiding development teams in creating supportive housing for Iowans with the highest needs who are experiencing homelessness. The Institute concluded with investor presentations to advance projects toward development.

HCBS Rent Subsidy: IFA provides subsidies to persons who have received a home and community-based waiver services under the Medicaid program and individuals who are eligible for the federal Money Follows the Person grant program if they are eligible for rental assistance under this program. This program on average supports approximately 338 Iowans every month. In FY 2025, IFA expended over 100% of our award to support these Iowans.

No publicly owned land or property was used to address the needs identified in the plan.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	27,080,929
2. Match contributed during current Federal fiscal year	4,517,345
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	31,598,274
4. Match liability for current Federal fiscal year	2,052,478
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	29,545,796

DRAFT

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	36	122
Number of Non-Homeless households to be provided affordable housing units	77	195
Number of Special-Needs households to be provided affordable housing units	0	30
Total	113	347

Table 11 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	255
Number of households supported through The Production of New Units	66	53
Number of households supported through Rehab of Existing Units	25	6
Number of households supported through Acquisition of Existing Units	22	33
Total	113	347

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The state outperformed the total one-year goal for households supported. As these numbers reflect outcomes as projects close, projecting accurate annual actual outcomes can be difficult. Additionally, economic strains continue to be a challenge for developers to complete projects on time and within budget. The state anticipates a shift with future projects leaning more towards rehab and acquisitions of units over new construction; stretching dollars further to still meet the goal number of households supported.

In 2025, a HOME funding round was held for rental new construction, rehabilitation, acquisition rehabilitation, homebuyer assistance, and tenant-based rental assistance programs. TBRA continues to be a utilized program and the number of households with rental assistance is reflected here. For CDBG program, grant funds were provided for upper story rental conversion projects. One project creating two units were reflected in the table above. The two CDBG units were non-homeless households. The remaining actual are the result of HOME funded projects that were completed during the program year.

Note all data identified in the tables are based on affordable housing as defined in the HOME regulations at 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership and in the HTF regulations at 24 CFR 93.302 for rental housing and 24 CFR 93.304 for homeownership.

Note all data identified in the tables are based on affordable housing as defined in the HOME regulations at 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership and in the HTF regulations at 24 CFR 93.302 for rental housing and 24 CFR 93.304 for homeownership

Discuss how these outcomes will impact future annual action plans.

The CDBG, HOME & HTF programs are expected to be on track to meet established housing goals in the Consolidated Plan and future annual action plans. Nevertheless, IEDA/IFA is aware of external threats that impact program participation and will continually evaluate each of its programs to identify ways it can overcome these to ensure maximum participation. As we see an increase in TBRA, the state may reflect and adjust Rental Assistance goals in future annual action plans.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual	HTF Actual
Extremely Low-income	0	246	18
Low-income	0	54	
Moderate-income	2	27	
Total	2	327	

Table 13 – Number of Households Served

Narrative Information

IFA/IEDA's immediate focus remains addressing extremely low-income, low-income, homeless, and special needs households in Iowa. Based on the most recent data provided by the Iowa Profile, Housing Data Snapshot, the most critical need for affordable housing in the state includes the lowest income segment. Many lowan are either cost burdened (i.e., spending 30% or more of their income on housing) or severely cost burdened (i.e., spending 50% or more of their income on housing) and those having a low AMI are disproportionately experience housing cost burden 22.4% of low income households

severely cost burdened by housing.

In addition to the traditional HUD housing programs (HOME/NHTF), IFA/IEDA have established several programs to address this problem including community-based housing revolving loan fund, Housing rehabilitation fund, Housing Tax Credit Program, State Housing Trust Fund, and more.

IFA operated a Homelessness Prevention and Rapid Rehousing pilot initiative using the state's federal Emergency Rental Assistance 2 (ERA2) funding allocation through September 2025. IFA disbursed more than \$29.1 million to fifteen homelessness prevention, rapid rehousing, and coordinated entry partner agencies statewide to assist 4,456 Iowa households with homelessness prevention and rapid rehousing services. In 2025, IFA also concluded its Home Repair Pilot Program (HRPP) funded through federal Homeowner Assistance Fund dollars with the primary goal of preventing homeowner displacement by assisting with home repairs to maintain the habitability, insurability, and accessibility of the home for eligible income-qualified households. IFA disbursed more than \$16.8 million in HAF funding under the HRPP to assist 487 eligible homeowners with critical home repair projects.

DRAFT

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Emergency Solutions Grants (ESG) program provides a limited amount of funding in support of street outreach to unsheltered persons. In Iowa, the cold winters and other factors result in an unsheltered population that is relatively small compared to more urban areas and areas with more temperate climates. A larger share of supportive services through ESG are offered through shelters, described below. To reach those who are living unsheltered in Iowa, homeless providers and outreach teams work together to identify and engage such persons. Partners include food programs, community libraries, community action programs, daycares, business owners, concerned residents, local law enforcement, medical providers, hospitals, churches, and regional programs serving rural areas. Some of those partnerships include homeless programs for veterans and domestic violence/sexual assault providers. This system lowers point of access barriers and offer an array of options to unsheltered individuals and families in Iowa. Outreach and assessment are also core components of Coordinated Entry, which is being implemented on a regionalized basis throughout Iowa, and which communities across the state continue to refine.

Addressing the emergency shelter and transitional housing needs of homeless persons

The state addresses the emergency shelter and transitional housing needs of homeless persons through both the Emergency Solutions Grants (ESG) program and the state Shelter Assistance Fund (SAF). The SAF program provides approximately \$1.8 million per year to support operations and essential services for emergency and transitional shelters. The state (through the grantee, Iowa Finance Authority) works closely with the Iowa Balance of State Continuum of Care to plan both. Many of the shelters receiving funds are dedicated to special populations, including survivors of domestic violence, youth, veterans, persons with disabilities, and persons recovering from substance abuse. In times of extreme weather, usually in the winter, most communities in Iowa offer temporary additional overflow shelters. Throughout the year, shelters are focused on meeting immediate safety needs, and most offer progressively more intensive wrap-around supportive services to help participants exit to more stable housing.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that

address housing, health, social services, employment, education, or youth needs

In keeping with federal priorities, the state has traditionally focused its limited ESG dollars to help families and individuals experiencing homelessness, largely through Rapid Rehousing and Shelter. This allows fewer resources for Homelessness Prevention. The agencies that typically continue to offer Homelessness Prevention tend to be those serving more rural areas, where families and individuals are more likely to be doubled up rather than literally homeless, because of the absence of shelters. Legal aid continues to be an important component of prevention, as does short-term rental assistance.

Regarding discharge of persons from public institutions, the state coordinates with a range of partners, depending on the type of institution. For example, Iowa law mandates that the case permanency plan for all children in foster care must include a written transition plan for youth aged 16 years and older. Iowa law also extends foster care until the age of twenty-one, during which time youth must participate in an education program or work full time.

For discharge from health care institutions, if someone was homeless prior to admission, health care clinics such as the University of Iowa have social workers who work with patients before discharge to develop housing plans. When applicable, the Projects for Assistance in Transitioning from Homelessness (PATH) Program assists private hospital mental health units to place people into transitional or supportive housing. The VA routinely assists with placement into adult family living situations, long-term care facilities, or permanent supportive housing.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Providers are encouraged to collaborate with local partners, including rapid rehousing and affordable housing providers, to quickly move individuals and families off the streets and out of emergency shelters to stable housing. CoCs in Iowa have used Coordinated Entry tools such as the VI-SPDAT to prioritize assistance to those with the most severe needs.

To prevent returns to homelessness, many providers work with participants for up to six months after securing permanent housing to retain housing, secure and maintain employment and other benefits, and engage services within the broader community. During the Covid-19 pandemic, Rapid Rehousing took on a different role. There were some additional funding sources for Rehousing, which were important to get people out of congregate shelters and into private housing to reduce health risks for both program participants and subgrantee staff providing frontline services.

During 2022, the state launched an additional Rapid Rehousing pilot program, in response to other

sources of funding for Rapid Rehousing winding down, including ESG-CV. The program was funded with a portion of the state's Emergency Rental Assistance funds from the U.S. Treasury and provided services through the same overall network of regional organizations.

DRAFT

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The State does not operate any public housing units; therefore, the Consolidated Plan did not commit to any specific actions related to public housing initiatives. However, the State does work with local public housing agencies (PHAs) and is interested in efforts to increase residents' involvement in public housing management and provide them with expanded homeownership opportunities. The state did provide one HOME award during 2025 to a public housing agency.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The State does not operate any public housing units; therefore, the Consolidated Plan did not commit to any specific actions related to public housing initiatives. However, although the State does not currently provide subsidies or incentives for homeownership specifically for public housing authorities' residents, the State does work with local public housing agencies and is interested in efforts to increase resident involvement in public housing management and provide them with expanded homeownership opportunities.

Actions taken to provide assistance to troubled PHAs

There are no troubled PHAs in Iowa.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The Consolidated Plan did not outline any specific actions the state would take to remove or reduce negative effects of public policy. However, to be proactive, IEDA/IFA does continuously monitor public policy for impacts to affordable housing and community development. The State is fortunate that growth controls, excessive regulations, inordinate developer fees, rent control and other potentially negative public policies are not critical problems in Iowa at this time.

In June of 2023, IFA entered a contract with the Amherst H. Wilder Foundation, Wilder Research, for the purpose of completing a cost-effectiveness and outcomes analysis of Permanent Supportive Housing using a Housing First approach to serve persons experiencing chronic homelessness in Iowa. The study is being completed using the Permanent Supportive Housing cost-effectiveness framework proposed by the National Academy of Sciences. The study is currently in process with a final report scheduled for mid-2026.

Developed with funding from the Iowa Finance Authority, Iowa State University Extension and Outreach launched the Online Guide to Iowa Zoning, a new publicly accessible mapping and data tool designed to help policymakers, planners, and community leaders better understand how local zoning regulations shape housing development across the state. The guide brings together zoning maps and housing-related zoning regulations for hundreds of Iowa cities in a single, interactive online platform. The resource allows users to explore zoning districts city by city and compare key housing-related standards across similar communities. The guide reflects zoning maps and ordinances adopted by 243 Iowa cities as of December 31, 2024, and is intended to serve as a snapshot in time rather than a real-time regulatory database. In addition to interactive maps and tools to help users compare zoning characteristics across similar communities, a final report summarizes project findings on the use of zoning standards such as exclusive single-family zoning, minimum lot sizes and setbacks, parking requirements, planned unit developments, by-right approval of residential projects, and others.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The primary obstacles to meeting underserved needs are lack of financial and human resources and a growing gap between housing costs and incomes. The state continues to leverage American Rescue Plan funds, State and Local Fiscally Recovery funds, and Emergency Rental Assistance funds, in addition to traditional HUD funds in order to minimize these gaps.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The Iowa Department of Health and Human Services (Iowa HHS) leads efforts in Iowa to prevent lead poisoning. Through the Childhood Lead Poisoning Prevention Program (CLPPP), Iowa HHS works with Counties across the state to ensure children are tested for elevated blood lead levels.

Iowa HHS through the CLPPP and the Iowa Institute of Public Health Research and Policy (IIPHRP) have collaborated to form a statewide workgroup to facilitate improved outreach, education, and program changes to prevent childhood lead poisoning in Iowa. The Childhood Lead Advisory Workgroup (CLAW) members include local housing officials, medical professionals, public health officials, elected officials as well as other child health and housing services professionals. The group, formed in 2020, develops comprehensive strategies to prevent childhood lead poisoning through statewide policy and program changes and includes a Housing Policy subgroup aimed at increasing awareness about lead-based paint and housing-related issues.

In cases lead abatement services must be procured, IFA will require that the appropriate state-licensed lead professional is identified prior to processing activity draws. IFA evaluates compliance through the project manager's monitoring of project files and from observations at on-site draw and project monitoring visits. When an issue is identified, IFA works with the Iowa HHS to advise the owner how to comply with the state and federal laws.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

Ensuring economic prosperity is a top priority of the State of Iowa. Recent and current initiatives at the state level regarding job training, housing and childcare are designed to impact all Iowans, but especially those at or around the poverty level.

The State, in partnership with nonprofits and businesses, can influence the chances of moving families and individuals up and out of poverty by supporting local and regional efforts to create new jobs and improve family incomes. State and regional projects and initiatives that will impact the employment and economic levels of employees and residents, such as financial assistance for entrepreneurial and small businesses, tax incentives, site location assistance, infrastructure improvements to water and sewer systems, community facilities, and downtown commercial rehabilitation, will create a positive economic environment.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Public agencies, government entities, businesses, and non-profit private organizations all play a part in the provision of affordable housing, social services, capital improvements, and economic development. However, the lack of financial resources for development, operations, and support services is a huge gap to overcome. Addressing these gaps remains a high priority for Iowa. The State will continue to work to provide stronger coordination between agencies and local organizations.

IEDA/IFA provides regular workshops and technical assistance for current and potential applicants for CDBG and HOME funds. Resources and training materials can be found on the website:

<https://opportunityiowa.gov/>.

The State welcomes new partners and will continue to proactively work with other agencies and for-profit and non-profit private organizations to ensure that efficient and effective programs are developed and managed. To the extent that redundancy is reduced, and streamlining is increased, the State and other jurisdictions will better serve Iowans.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Public agencies, government entities, businesses, and non-profit private organizations all play a part in the provision of affordable housing, social services, capital improvements, and economic development. However, the lack of financial resources for development, operations, and support services is a huge gap to overcome. Addressing these gaps remains a high priority for Iowa. The State will continue to work to provide stronger coordination between agencies and local organizations.

IEDA/IFA provides regular workshops and technical assistance for current and potential applicants for CDBG and HOME funds. Resources and training materials can be found on the website:

<https://opportunityiowa.gov/>

The State welcomes new partners and will continue to proactively work with other agencies and for-profit and non-profit private organizations to ensure that efficient and effective programs are developed and managed. To the extent that redundancy is reduced, and streamlining is increased, the State and other jurisdictions will better serve Iowans.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

IEDA/IFA have several policies to promote and demonstrate their commitment to Fair Housing in the State. These are conveyed through workshops, contractual language, management guide instructions, and technical assistance. IEDA's CDBG Management Guide, which is distributed to program recipients and is available on the IEDA website, contains sections on fair housing and affirmative marketing. The sections provide guidance for achieving goals.

IFA provides a HOME Program Guide to Rental, Homebuyer, and TBRA recipients which provides guidance on civil rights and fair housing. HOME recipients and developers must submit an Affirmative Fair Housing Marketing Plan, so IFA developed an Outreach Guide to assist them in completing their AFHM Plans. This guide provides links to HUD regulations, publishing standards, and forms. The guide also describes the difference between general and special outreach marketing efforts. In addition, it provides ideas for community contacts in Iowa that may be available to reach targeted populations more effectively. IFA's review of Affirmative Fair Housing Marketing Plans for HOME recipients encourages direct advertising to reach targeted populations found in their housing market areas. The recipients are asked to select and identify underserved targeted populations using the most current American Community Survey 5-year estimates census data. Advertising methods are to demonstrate

direct methods of advertising that are known to reach each targeted population. Recipients are encouraged to advertise locally or regionally, increasing the likelihood of attracting selected populations and to find advertising sources or methods known to reach specific underserved groups. Recipients are encouraged to translate ads in other languages used by a targeted group or use alternate methods of advertising such as braille, large print, or audio tapes. IEDA project managers provide technical assistance to recipients regarding fair housing. Additionally, through project monitoring, IEDA reviews each recipient's fair housing performance.

During the 2025 program year, IEDA/IFA updated the Iowa Fair Housing Plan (Analysis of Impediment to Fair Housing). The process to update the plan includes soliciting feedback from community stakeholders in order to better understand the challenges faced in Iowa. Three impediments to fair housing were identified:

- There is a low supply of affordable housing.
- Affordable housing options often lack accessibility features for people with physical disabilities and seniors.
- Community members have limited knowledge of their fair housing rights and landlord responsibilities.

Over the next five years, the state will make efforts to address these impediments with the goal of increasing affordable housing supply, increasing accessible housing supply, promoting knowledge of fair housing, and increasing language access. In August 2025 and September 2025 IEDA/IFA staff participated in Iowa Fair Housing workshops to discuss and provide feedback on the Fair Housing Plan. The full plan can be accessed on IEDA/IFAs website here: <https://opportunityiowa.gov/community/community-infrastructure/cdbg-resources/cdbg-plans-and-reports>

The Iowa Civil Rights Commission contracted with Family Housing Advisory Services, Inc. (hereafter FHAS) to conduct testing in Iowa. The Commission and FHAS worked together to identify communities in need of this work. The Fair Housing Center of NE-IA (hereafter FHC) is a subsidiary of FHAS. FHC carried out the testing. In the first phase of the project, FHC conducted matched pair fair housing telephone test. Of these tests, many were related to real estate transactions and sales and rental transactions. These tests were conducted to determine if race and nation origin were being used to exclude those from renting or purchasing.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

ESG subrecipients receive a monitoring visit approx. once every three years. In-person monitoring includes reviewing agency/program policies and procedures, reviewing a sample of client files, interviews with program and fiscal staff, a voluntary interview with a program participant if possible, and a physical inspection of the facility if it is a shelter. IFA's staff includes team members that conduct in-person monitoring across several programs and brings consistency and experience to the process. In particular, ESG is monitored in conjunction with the state's Shelter Assistance Fund (SAF) program, as that program follows similar rules for shelter projects, and a significant portion of these dollars contribute to the state's ESG matching requirement. Agencies receive in-person visits for the ESG and/or Shelter Assistance Fund programs. IFA also supplements in-person monitoring with desk monitoring of financial records in support of program expenditures. Each month IFA selects a percentage of funded agencies for this desk monitoring. Agencies submit additional documentation in support of eligible expenses, which IFA then reviews and issues a response back to agencies if the materials demonstrate compliance or if changes or additional information are required.

HOPWA sponsors receive a monitoring visit about once every three years. In-person monitoring includes reviewing agency/program policies and procedures, reviewing a sample of client files, interviews with program and fiscal staff, and a voluntary interview with a program participant if possible. IFA's staff includes team members that conduct in-person monitoring across several programs and brings consistency and experience to the process. IFA also supplements in-person monitoring with through desk monitoring, with selected reimbursement requests sent in for payment. In addition to reviewing expenditures, past desk monitoring has included reviewing information about clients assisted during the period under review. For new TBRA applicants, sponsors sent in full eligibility information for IFA review. For STRMU recipients, sponsors sent in information sufficient for IFA to review ongoing compliance with the annual limitations on assistance. In 2020, IFA updated its reimbursement request policies to expedite grant payment requests from partner agencies, and this expedited process continued in 2025.

IFA monitors HOME and HTF activities from allocation throughout their affordability/compliance period. IFA continues to minimize the number of activities that exceed the 120-day deadline for inactivity following the last draw and maintains a high occupancy rate of completed units. The allocation team sends initial and final close-out letters to the recipient once the HOME funds have been expended. The letters specify the long-term compliance requirements such as the affordability period, the number of high/low rent units, and if the units are fixed/floating and provide the contacts name in IFA's compliance team. The compliance team then performs long-term compliance requirements such as inspections, rent approvals and review of annual owner certifications and testing of tenant data in their monitoring software. IFA is responsible for determining the adequacy of performance of the projects under their contracts and for taking appropriate action when performance is inadequate, or problems arise. IFA also

approves the annual Utility Allowances for HOME projects, and has created a training which is provided, free of charge, for owners/management agents on the creation and maintenance of the HUD Utility Schedule Model (HUSM.) Additionally, IFA pays for the first year model upon receipt of the acknowledgment that the class has been completed.

IEDA has had responsibility for the CDBG program since 1982 and has developed thorough and effective monitoring procedures for the program. All CDBG funded projects are monitored for compliance on an ongoing basis and are formally monitored with an in-person or virtual site-visit during the life of the project, typically once the project has expended 50% of funds. Monitoring and oversight provides an opportunity for IEDA team members to ensure program compliance, project progress, and to provide technical assistance to recipients and grant administrators. Annually, IEDA conducts an annual risk-based assessment of all open CDBG projects that evaluate sub-recipient risk based on size of the award, compliance issues to date, reimbursement status, administrator capacity, etc. The risk assessment helps identify potential problems and helps team members prioritize monitoring and oversight efforts. Iowa CDBG program includes a formal project close out procedure that further helps ensure program compliance.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

IEDA and IFA made a draft of this report available for public review and comment. A notice of availability was published in the Des Moines Register on March 11, 2026. The draft report was placed on the IEDA and IFA websites, with a related announcement, on March 9, 2026. IEDA and IFA hosted an in person and virtual public hearing on March 23, 2026 from 1:00PM – 3:00PM at the Iowa Economic Development Authority & Iowa Finance Authority office located at 1963 Bell Ave, suite 200, Des Moines. Attendees were also invited to provide comments virtually by calling into the hearing.

No comments were provided either in writing or during the public hearing. The hearing was recorded. Citizen participation was solicited, and comment opportunities were available on the department website: <https://opportunityiowa.gov/>

The draft CAPER was placed on the IEDA and IFA websites on March DATE. Public comments on the draft CAPER were invited through 12:00PM on March 27, 2026.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction’s program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

IEDA continues to implement CDBG program as outline in the strategic plan and annual action plan. During this program year, program guidelines were developed to lay the foundation for successful implementation during future program years. The state expects to be on track towards outlined goals and objectives in future grant years as funded project close. Increasing costs and the current economic landscape continues to create new challenges for sub-recipients; program staff provide technical assistance and program oversight to keep projects on schedule and achieving outcomes.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

DRAFT

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

For the inspection for 2025:

Number of HOME Projects to be inspected:96

Number of HOME Projects inspected: 96

Total number of HOME units in these Projects: 1,351

Minimum number of Units to be inspected (20%): 614

Actual Units Inspected:

Results for properties inspected in 2025 can be found in the chart below.

2025 Inspection Report Pg1

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24

CFR 91.520(e) and 24 CFR 92.351(a)

IFA provides a HOME Program Guide to Rental, Homebuyer, and TBRA recipients which provides guidance on civil rights and fair housing. IFA developed an Affirmative Fair Housing Marketing Guide to assist recipients and developers in completing their AFHM Plans. This guide describes the meaning of affirmative marketing and the goals of the plan. It also provides links to HUD regulations, publishing standards, and forms; instructions on completing plan worksheets; highlights some common mistakes; and provides guidance on how to evaluate your plan at least every five years. Each Affirmative Fair Housing Marketing Plan must address the following:

- Information about the recipient/owner/agent of HOME-assisted housing.
- Gather demographics to determine targeted marketing activity for populations who may need special outreach in the housing market area.
- Identify community contacts who can describe how they interact with and reach selected groups, dates of contact, and how they have agreed to assist with the plan.
- Identify and document methods of advertising used to reach targeted populations (i.e., newspaper, websites, brochures, etc.), list languages in which ads will be provided, alternative formats used (i.e., large print, braille, etc.), and identify methods used to reach majority populations.
- Identify how they will make available to the public fair housing posters, affirmative fair housing marketing plans. Location and content of project site signs, if applicable.
- Describe how they will evaluate current marketing activities effectiveness and how future marketing decisions and plan updates will be managed.
- Identify who will be responsible for training and assessment of staff to acquire knowledge on Fair Housing Act and Policies and implementation of the Affirmative Fair Housing Marketing Plan.
- To include additional information, if needed, to explain efforts made to market to those least likely to apply in the housing market area.
- HOME recipients are required to target persons with disabilities regardless of percentages found in the housing market area.

HOME recipients were asked to provide Affirmative Fair Housing Marketing Plans that were complete and demonstrated the opportunity for effective implementation to meet Affirmative Fair Housing Marketing goals. Recipients were encouraged to document extra effort taken to directly market to underserved populations so they could effectively evaluate their outreach efforts. Advertising included traditional and non-traditional methods. Staff encouraged recipients to seek alternate marketing formats in other languages, large print, or braille. Recipients were also asked to seek out local community contacts before using regional or statewide contacts to increase the likelihood of attracting targeted populations. Marketing was found to include but were not limited to:

- Churches
- Community Agencies
- Regional or State Agencies
- Advocacy Groups
- Publications directed to a targeted group(s)
- Special obligation to market to persons with disabilities (Section 504)

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

Total Program Income (PI, HP & PA) Expended on Activities in Program Year 2025 per PR 09: \$1,438,973
Total Program Income Expended on Completed Activities in 2025: \$1,618,261.80 This program income includes ALL program income expended on activities that were completed during 2025 regardless of what year the program income was expended.

Homebuyer Subrecipients: \$77,904 in program income draws expended to 3 projects representing 0 IDIS activities.

Rental with Tax Credits: \$890,000 in program income draws expended to 3 projects representing 3 IDIS activities.

Rental without Tax Credits: \$631,399.80 in program income draws expended to 1 project representing 0 IDIS activities.

TBRA: \$18,958 in program income draws expended to 2 projects representing 2 IDIS activities.

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

IFA administers the Low-Income Housing Tax Credit (LIHTC) program.

IFA provides subsidies to persons who have received a home and community-based waiver services under the Medicaid program and individuals who are eligible for the federal Money Follows the Person grant program if they are eligible for rental assistance under this program.

In fiscal year 2025, the State Housing Trust Fund (SHTF) provided more than \$12 million to help ensure decent, safe, and affordable housing for low-income Iowans through two important programs. The Local Housing Trust Fund (LHTF) Program receives the vast majority of the annual SHTF allocation to provide grants for organizations certified by IFA as a LHTF. There are twenty-six certified LHTFs that serve all 99 Iowa counties and, in fiscal year 2025, provided a minimum 25% local match for every dollar received from the State. The grant funds are used for initiatives such as preserving aging housing stock, subsidizing local rental and down payment assistance programs, providing low-interest loans or grants to assist with home rehabilitation and accessibility improvements, financing construction of new single-family housing, and supporting housing for persons with disabilities and persons experiencing homelessness. The remaining SHTF funding goes to the Project-Based Housing Program, which aids in the development of affordable single-family and multifamily housing, including Habitat for Humanity home builds. The Project-Based Housing Program assists locally supported affordable housing projects that are not eligible to receive funding under LHTF's Housing Assistance Plan. In FY 2025, project-based housing program funding awards totaled \$150,000 across three different Iowa Communities.

IFA provides administrative services to HUD to monitor performance of owners and management agents participating in project-based Housing Assistance Payments (HAP) Contracts under Section 8 of the United States Housing Act of 1937. IFA currently provides services to 191 Iowa rental properties, that

provide housing to 11,367 units (individuals/families) in 65 Iowa counties.

DRAFT

CR-55 - HOPWA 91.520(e)

Identify the number of individuals assisted and the types of assistance provided

Table for report on the one-year goals for the number of households provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities developed, leased, or operated with HOPWA funds.

Number of Households Served Through:	One-year Goal	Actual
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	100	106
Tenant-based rental assistance	50	85
Units provided in permanent housing facilities developed, leased, or operated with HOPWA funds	40	154
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	0	0

Table 14 – HOPWA Number of Households Served

Narrative

The HOPWA CAPER for the 2025 calendar year was submitted to the Omaha Field Office and included one grantee workbook and five sponsor workbooks.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

Consistent with the Consolidated Plan and Annual Action Plan, IFA held an HTF funding round in August and September of 2025. Three applications were received and one was funded. The funded project is anticipated to create 6 housing units. The eighteen completed units in the table below reflect projects that were funded in a prior program year that closed in 2025.

Tenure Type	0 – 30% AMI	0% of 30+ to poverty line (when poverty line is higher than 30% AMI)	% of the higher of 30+ AMI or poverty line to 50% AMI	Total Occupied Units	Units Completed, Not Occupied	Total Completed Units
Rental	18	0	0	18	0	18
Homebuyer	0	0	0	0	0	0

Table 15 - CR-56 HTF Units in HTF activities completed during the period

CR-58 – Section 3

Identify the number of individuals assisted and the types of assistance provided

Total Labor Hours	CDBG	HOME	ESG	HOPWA	HTF
Total Number of Activities	43	7	0	0	1
Total Labor Hours	15,913	138,504			17,007
Total Section 3 Worker Hours	4,272	55,925			9,175
Total Targeted Section 3 Worker Hours	34	21,188			0

Table 15 – Total Labor Hours

Qualitative Efforts - Number of Activities by Program	CDBG	HOME	ESG	HOPWA	HTF
Outreach efforts to generate job applicants who are Public Housing Targeted Workers	4	1			1
Outreach efforts to generate job applicants who are Other Funding Targeted Workers.	1				1
Direct, on-the job training (including apprenticeships).	1				
Indirect training such as arranging for, contracting for, or paying tuition for, off-site training.	1				
Technical assistance to help Section 3 workers compete for jobs (e.g., resume assistance, coaching).	4				
Outreach efforts to identify and secure bids from Section 3 business concerns.	8				
Technical assistance to help Section 3 business concerns understand and bid on contracts.	2				
Division of contracts into smaller jobs to facilitate participation by Section 3 business concerns.					
Provided or connected residents with assistance in seeking employment including: drafting resumes, preparing for interviews, finding job opportunities, connecting residents to job placement services.	9	2			
Held one or more job fairs.	2				
Provided or connected residents with supportive services that can provide direct services or referrals.	2				
Provided or connected residents with supportive services that provide one or more of the following: work readiness health screenings, interview clothing, uniforms, test fees, transportation.	5				
Assisted residents with finding child care.	1				
Assisted residents to apply for, or attend community college or a four year educational institution.	1				
Assisted residents to apply for, or attend vocational/technical training.	1				
Assisted residents to obtain financial literacy training and/or coaching.	1				
Bonding assistance, guaranties, or other efforts to support viable bids from Section 3 business concerns.					
Provided or connected residents with training on computer use or online technologies.					
Promoting the use of a business registry designed to create opportunities for disadvantaged and small businesses.					
Outreach, engagement, or referrals with the state one-stop system, as designed in Section 121(e)(2) of the Workforce Innovation and Opportunity Act.	1

Number of New Units - Rehabbed	0
Number of New Units - Conversion	0
Total Number of bed-nights available	77,029
Total Number of bed-nights provided	76,012
Capacity Utilization	98.68%

Table 25 – Shelter Capacity

9. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

Applicants for ESG funds report on performance standards developed in consultation with the CoC, including the following: 1) (all programs) numbers served and percentage served that were literally homeless at entry; 2) (Rapid Rehousing programs) length of time from enrollment to housing, move-in error rate, and exit destination error rate; 3) (Rapid Rehousing programs) percentage of clients served that exited to permanent housing; 4) (Shelter programs) length of time in shelter, exits to permanent housing, and exit destination error rate; 5) (Street Outreach programs) percentage of program participant leavers that exited to the streets or unknown; and 6) (Homelessness Prevention programs) percentage of participants that remained permanently housed. Applicants also reported data completeness and data timeliness. For the Shelter Utilization measure here, the data in CR-70 comes from emergency services projects only. Note: this does not include overflow beds at these projects.

CR-75 – Expenditures

11. Expenditures

2025 SAGE Report

Submission Overview: ESG: CAPER

Report: CAPER

Period: 1/1/2025 - 12/31/2025

Your user level here: Data Entry and Account Admin

Step 1: Dates

1/1/2025 to 12/31/2025

Step 2: Contact Information

Grant Contact

The Contact Person should be the person that the HUD Field Office or HUD Headquarters should contact regarding your APR submission should there be any questions or issues. The contact person should be familiar with both the project and the APR submission. This is also the person who will receive the email from Sage acknowledging the submission of the APR to the HUD Field Office and of the action taken by the Field Office approval, request to resubmit, comments, etc.

First Name **Rebecca**
Middle Name
Last Name **Stout**
Suffix
Title **Homelessness Programs Manager**
Street Address 1 **963 Bell Avenue, Suite 200**
Street Address 2
City **Des Moines**
State **Iowa**
ZIP Code **50315**
E-mail Address **Rebecca.Stout@iowafinance.com**
Phone Number **(515)452-0424**
Extension
Fax Number

Additional Contact(s)

Additional contact(s) will receive automatic email notifications from Sage regarding report status changes.

Step 4: Grant Information

Emergency Shelter Rehab/Conversion

Did you create additional shelter beds/units through an ESG-funded rehab project **No**
Did you create additional shelter beds/units through an ESG-funded conversion project **No**

Data Participation Information

Are there any funded projects, except HMIS or Admin, which are not listed on the Project, Links and Uploads form? This includes projects in the HMIS and from VSP **No**

Step 5: Project Outcomes

Project outcomes are required for all CAPERS where the program year start date is 1-1-2021 or later. This form replaces the narrative in CR-70 of the eCon Planning Suite.

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: "Describe performance standards for evaluating ESG."

For ESG competitions, applicants are generally evaluated according to the following performance standards: 1) Number of participants served; 2) Severity of needs of participants served (percentage of past participants served that were coming directly from the streets or places not meant for human habitation); 3) Rapid Rehousing: Past average length of time from enrollment to permanently housing a participant; 4) Rapid Rehousing: Percentage of past participants that exited to a permanent destination; 5) Shelter: Average length of stay, compared to exits to permanent housing; 6) Street Outreach: Percentage of past participants that exited to the streets or unknown; and 7) Homelessness Prevention: Past percentage of participants that exited and remained permanently housed. Agencies are also evaluated on data timeliness and data completeness to promote the quality and accuracy of data used to assess performance.

Based on the information from the Action Plan response previously provided to HUD:

1. Briefly describe how you met the performance standards identified in A-90 this program year. *If they are not measurable as written type in N/A as the answer.*

The performance standards described above are subgrantee performance standards, utilized in evaluating projects and making grant awards. We understand that in the system HUD has designed for responding to homelessness, the responsibility for meeting overall system performance standards has been largely assigned to Continuums of Care, and the state works closely with the CoCs in Iowa to assist their efforts. Regarding the state's goals and outcomes for ESG specifically, AP-20 of the Annual Action Plan addresses these measurable goals and CR-05 of the CAPER reports on the associated outcomes.

2. Briefly describe what you did not meet and why. *If they are not measurable as written type in N/A as the answer.*

The performance standards described above are subgrantee performance standards, utilized in evaluating projects and making grant awards. We understand that in the system HUD has designed for responding to homelessness, the responsibility for meeting overall system performance standards has been largely assigned to Continuums of Care, and the state works closely with the CoCs in Iowa to assist their efforts. Regarding the state's goals and outcomes for ESG specifically, AP-20 of the Annual Action Plan addresses these measurable goals and CR-05 of the CAPER reports on the associated outcomes.

OR

3. If your standards were not written as measurable, provide a sample of what you will change them to in the future? *If they were measurable and you answered above type in N/A as the answer.*

N/A

Step 6: Financial Information

ESG Information from IDIS

As of 2/27/2026

Step 8: Program Income

Program income is the income received by the recipient or subrecipient directly generated by a grant supported activity. Program income is defined in 2 CFR §200.307. More information is also available in the [ESG CAPER Guidebook](#).

Did the recipient earn program income from any ESG project during the program year?

No
