

**Why You Should Read This:** The document below reviews the environmental impact likely from a State Revolving Fund project. As part of the environmental review, you are entitled to provide comments. If you have concerns about the environmental impact of this project, raise them now. We encourage public input in this decision-making process.

**IOWA STATE REVOLVING FUND**  
**REAFFIRMATION OF A CATEGORICAL EXCLUSION**

June 16, 2026

**To: All Interested Citizens, Government Agencies, and Public Groups**

An environmental review has been performed based on the procedures for implementing the National Environmental Policy Act (NEPA), for the proposed agency action below:

**Applicant:** City of Anthon

**SRF Number:** CS1921210 01

**County:** Woodbury

**Iowa DNR Project Number:** W2026-0080A

**State:** Iowa

Potential Other Funding Sources: CDBG

The purpose of this letter is to provide you with a State Revolving Fund (SRF) status update. This project has previously been reviewed by the DNR and a Categorical Exclusion (CX) was issued on March 24, 2026. This project will not be receiving federal funds through SRF.

DNR received a request to add the following scope to the project area: the proposed added scope for the project includes the demolition of the existing lift station building and drying beds. Demolition includes all above-grade structures, appurtenances, and miscellaneous components and the removal of all below grade structures to a depth of 3' below the proposed grading and be filled with sand, topped with topsoil. Any open below grade piping shall be capped, and the dumpster pad will be completely removed including footings and foundations. DNR has determined that the additional scope will result in no significant environmental impact as outlined in 40 CFR Part 6.

The CX is hereby Reaffirmed including the demolition of the existing lift station and drying beds. This action is taken on the basis of a careful review of the engineering report, the environmental assessment and other supporting data which are on file at the Department of Natural Resources' office in Des Moines, Iowa. These are available for public review upon request. This Department will not take any administrative action on the project for at least thirty (30) calendar days from the above date. Persons disagreeing with the above environmental decision may submit comments to the department during this period. Your comments can be sent to [SRF-PC@dnr.iowa.gov](mailto:SRF-PC@dnr.iowa.gov) or directly to me at [Nicole.Osborn@dnr.iowa.gov](mailto:Nicole.Osborn@dnr.iowa.gov) or (515) 321-7601.

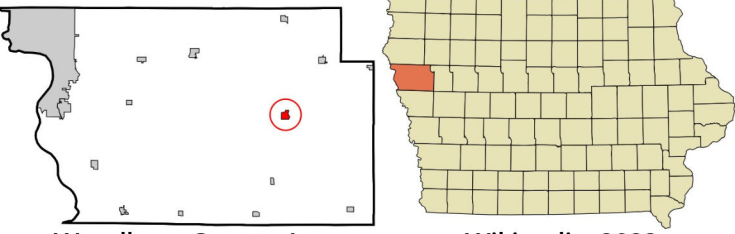

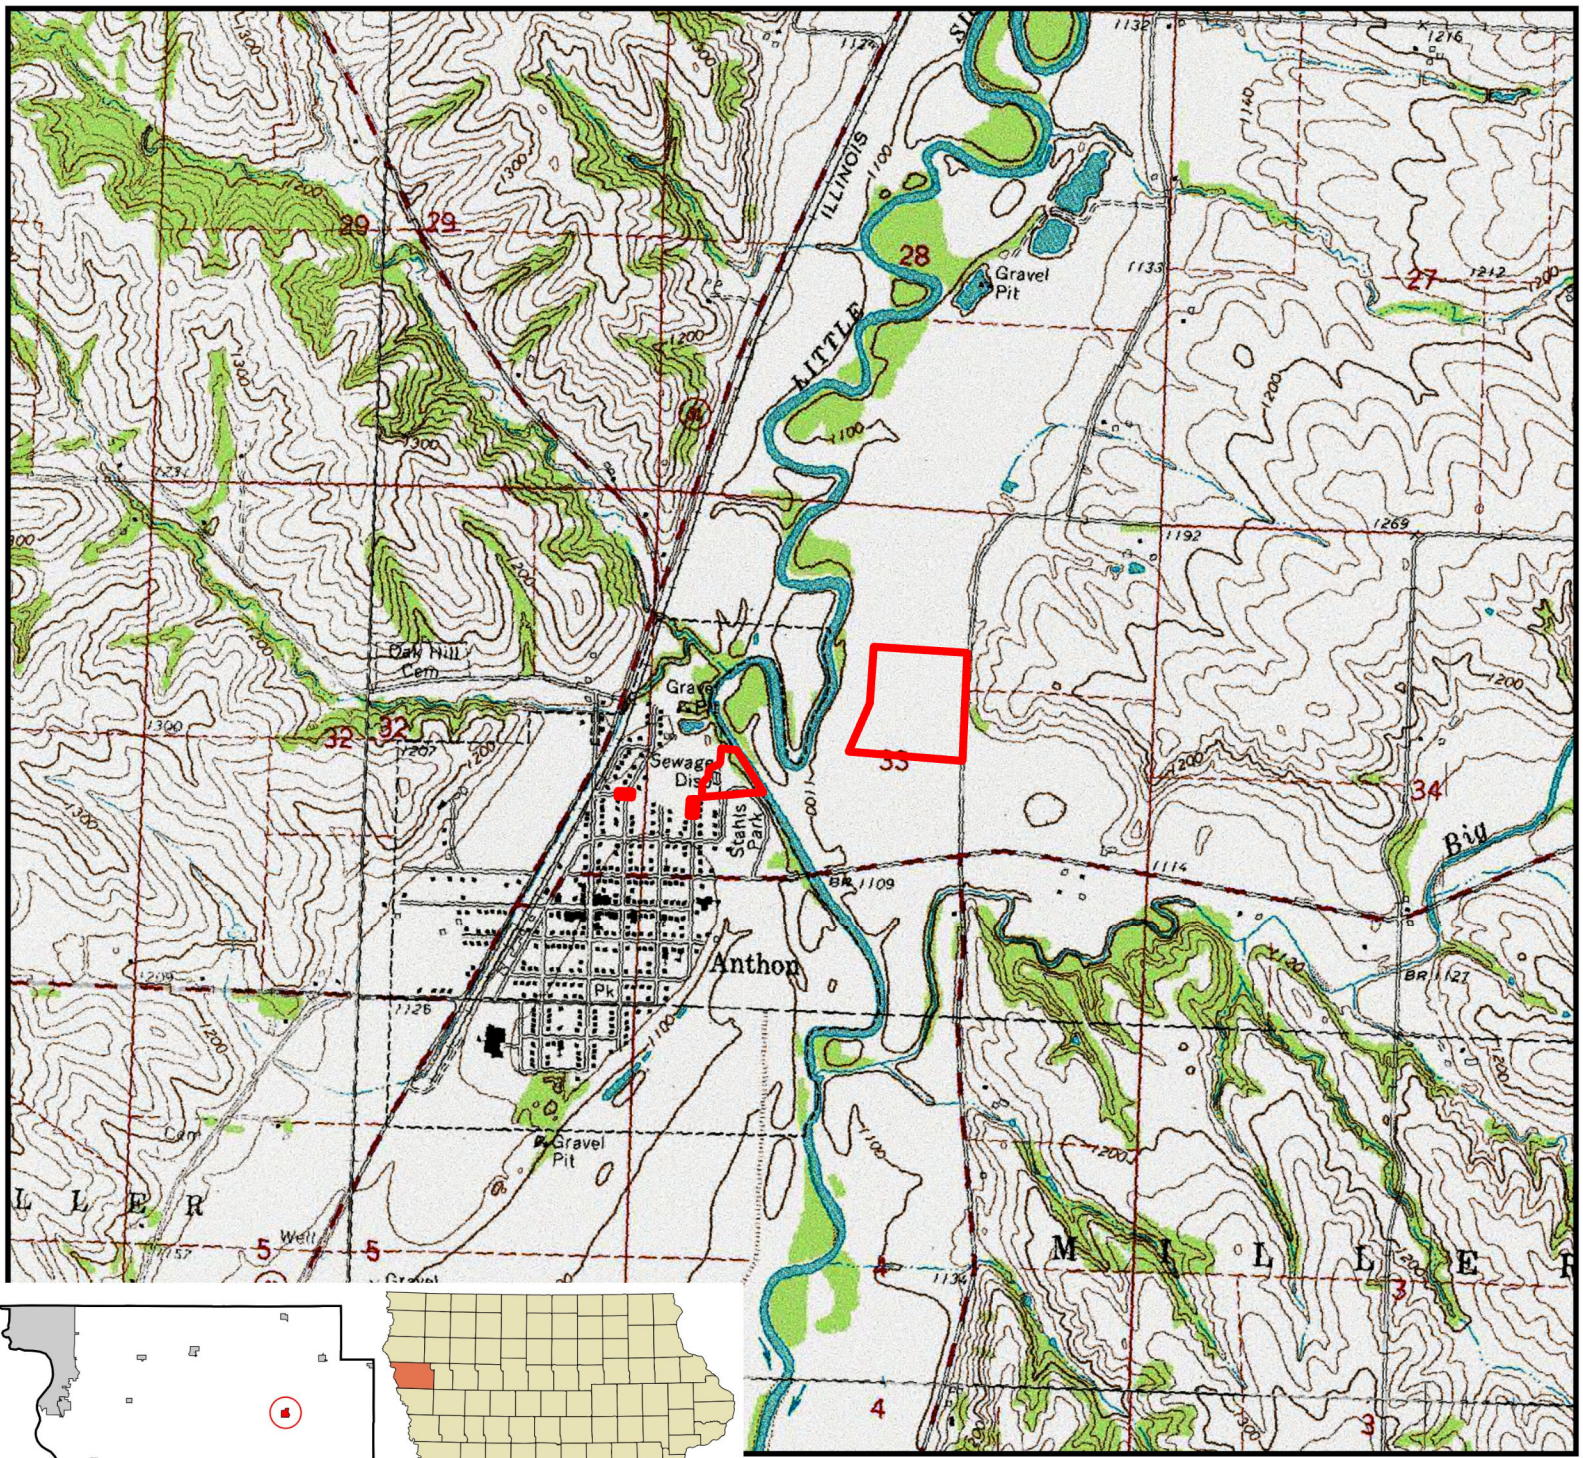

Sincerely,

Nicole Osborn
